THE HUSKY ANGLER CLOTHING

JUNE 2005

THIS MONTH'S FEATURED PRODUCT

Reviewed by Tim Tucker

If you're like me, then you know how tough it is to find quality fishing-oriented clothing in big and tall sizes.

Not even more. Go to <http://www.thehuskyangler.com/> and find your prayers answered.

The Husky Angler is an IGFA Authorized Outfitter that offers top-quality sporting and active wear for big, tall and plus-sized people.

Among their product is technical clothing is UV rated for sun protection and designed to repel water, dry quickly and resist staining. I have the shirt and zip-off pants, and I highly recommend them!

They are also the exclusive Internet retailer for the AIR-X100 Shirt and Abaco Zip-off Pants, manufactured for The Husky Angler by Hook and Tackle outfitters. They offer sizes from large to 5X.

Their over-sized offerings include short- and long-sleeved shirts, pants, shorts, Polartec fleece, fishing vests, belts, waders and hats.

And this is a company that stands behind what it sells.

For more information, call 203-470-8940 or go to [thehuskyangler.com](http://www.thehuskyangler.com).
